MANUEL MARTÍNEZ MANZANO

SOFTWARE DEVELOPMENT STUDENT | ERASMUS+ TRAINEESHIP CANDIDATE
Seville, Spain · Email: manuelmm.for@gmail.com
GitHub · LinkedIn

PROFILE

Software Development student completing Spain's Higher Technician Diploma in Multiplatform Application Development (EQF Level 5; 120 ECTS), with a 9.0/10 academic average. I learn new tools quickly and build end-to-end products, from a Python static-analysis tool to geospatial and web/mobile applications. Seeking a three-month Erasmus+ traineeship in backend, AI or application security; available March-June 2027, hybrid.

SELECTED PROJECTS

ProyectScan (repo-xray) | Repository · Windows release
Python · AST · Tree-sitter
Built a Python static-analysis tool for Python, Java and TypeScript repositories. It documents architecture, features and HTTP flows through diagrams and reports, and includes a CLI, a Windows executable and around 200 tests.

Benchify | Repository
Java · Spring Boot · Angular · PostgreSQL/PostGIS · Firebase
Built a full-stack geospatial map for discovering public benches, with location-based search, reviews, check-ins and moderation. The Spring Boot API and Angular client use PostgreSQL/PostGIS; the project also includes automated tests and CI.

MyOrganizationSchedule | Live demo · Repository
React · TypeScript · Firebase · Capacitor
Developed a multi-user planner combining a calendar, tasks, routines, statistics and a synchronised focus timer. The React and TypeScript app runs as a PWA and has an Android companion, with data stored in Firebase.

Skills_financieras_IA | Repository
Prompt design · AI-agent workflows · HTML/JavaScript
Created 15 reusable, prompt-based financial-analysis workflows for AI assistants, covering sectors, portfolios, risk, derivatives and crypto. A companion dashboard gathers live market and on-chain data and prepares structured snapshots for AI-assisted analysis.

EXPERIENCE

IT Intern | Seville City Council | Seville, Spain | Feb-Mar 2026
Resolved Plone 5 intranet issues and integrated an existing API so Human Resources news could be added directly to the intranet.

EDUCATION AND TALENT

Higher Technician Diploma in Multiplatform Application Development (DAM) | Salesianos Triana | 2025-2027
Selected for CAT (Centro de Apoyo al Talento), Fundación Persán's mentoring and talent programme for high-performing higher-VET students in Seville.

TECHNICAL SKILLS

Languages: Python, Java, TypeScript, JavaScript, C#, SQL and Luau.
Backend and data: Spring Boot, REST APIs, PostgreSQL/PostGIS and Firebase.
Frontend and mobile: Angular, React, HTML, CSS, Capacitor, Android and PWA.
Tools and AI: Docker, Git, GitFlow, GitHub Actions, Cloud Run, Firebase Hosting and prompt engineering.

CERTIFICATIONS AND LANGUAGES

Cambridge English Certificate (C1) | Europass Digital Skills: Advanced (Level 6/6 across five DigComp areas) | Spanish: native
